

ATMs

Cash remains a leading form of payment for consumers. Why let a customer leave your place of business to get money, only to never return? An ATM in your establishment provides your customers easy access to cash and increases your profits. Studies show that on average, 20 percent of the money withdrawn is spent at the ATM location.

Retail, restaurant, convenience store, hotel — no matter your type of business, an ATM is an ideal solution for your business.

First American Payment Systems offers three ATM programs designed to suit your business needs. Our friendly, knowledgeable customer service and technical support is available 24 hours a day, 7 days a week. Terminal activity is reported online in real-time, and revenue is deposited in your bank account the next business day.

First American sells and leases a variety of ATM products from Tranax and Triton, the industry's leading ATM manufacturers. Plus, we install and service ATMs in all 50 states, providing your business with superior service wherever you are.

ATM sales and placements — another powerful product from First American Payment Systems!

Add an ATM at your location and you can:

- ▶ Increase Profits
- ▶ Increase Traffic
- ▶ Increase Sales
- ▶ Gain Repeat Customers
